

Traveling to the **REPUBLIC OF KOREA?**

PROTECT YOURSELF FROM MERS

The outbreak of **MERS** (Middle East Respiratory Syndrome) in the Republic of Korea has been linked to health care facilities. The risk to travelers is low, but you should still follow these health tips:

PROTECT YOURSELF

Wash your hands
often with soap
and water.

Avoid
touching
your face.

Avoid close
contact with
sick people.

PAY ATTENTION TO YOUR HEALTH

Watch for symptoms
of MERS including
fever and cough or
shortness of breath.

Contact a doctor if you develop
these symptoms within 14 days
after being in a health care facility
in the Republic of Korea.

Tell the doctor about
your recent travel
before you go in for
your appointment.
